

# GEOVIA SURPAC BASIC MACROS FOR AUTOMATION

(2 DAYS)

The SURPAC™ Basic Macros for Automation is a two-day course designed for participants to gain the competence to modify recorded scripts by adding user forms, variables and control logic to customise and automate daily tasks performed within SURPAC.

## COURSE PREREQUISITES

Before taking this course, you require the following:

- Knowledge of Windows® 2000, XP, Vista® or Windows 7 Operating System
- Reasonable understanding of and exposure to SURPAC
- Previous use of a text editor like Notepad or CONText

The SURPAC menu structure and graphical user interface (GUI) are similar to most Windows-based packages and therefore a basic knowledge of the Windows operating system and environment is necessary.

## EXPECTED OUTCOMES

Upon completion of this course, you will be able to accomplish the following:

- Record TCL macros to accomplish a specific goal
- Insert user forms and control logic into recorded macros
- Use various TCL commands to achieve your goal
- Modify and debug existing site macros
- Confidence to explore further TCL/SCL commands

If a desired expected outcome is not listed above, please contact us to learn more about how we can tailor training to meet your needs.
