

GEOVIA SURPAC FOUNDATION

(1 DAY)

The SURPAC™ Foundation course is a comprehensive one-day course designed for new users of Surpac, regardless of discipline. This introductory training course will give you the skills you need to perform common functions in the software and use it productively. It covers concepts and procedures that will allow the user to perform basic functions in the software, and will serve as a basis for more advanced training.

COURSE PREREQUISITES

Before taking this course, you require the following:

- Knowledge of Windows® 2000, XP, Vista® or Windows 7 Operating System

The SURPAC menu structure and graphical user interface (GUI) are similar to most Windows-based packages and therefore a basic knowledge of the Windows operating system and environment is necessary.

EXPECTED OUTCOMES

Upon completion of this course, you will be able to accomplish the following:

- Install and license Surpac
- Customise the interface and icons
- Use the basic components of the system for setting up and viewing data
- Understand the data types, concepts and file structure
- Create new data for points, lines and surfaces
- Understand the concepts of surfaces and generate them
- Generate simple volume calculations between surfaces
- Display and create basic solids
- Create simple plots

If a desired expected outcome is not listed above, please contact us to learn more about how we can tailor training to meet your needs.
