Dassault Systèmes Industry Services

PLM Maturity Assessment

Unlock the Full Value of your DS PLM Investment

Ensure Your PLM Investment gives you the best Competitive Advantage?

PLM Technology allows you to gain efficiency on your processes, but getting the best competitive advantage from DS solutions requires you to define an accurate vision and initiatives for your company.

Assess Your PLM Maturity

Dassault Systèmes Industry Services offers the PLM Maturity Assessment to help you measure how your company benefits from DS PLM technology in the critical product development processes specific to your industry and compare it to the world's best in class. Based on your company's business goals, initiatives, and targeted return, we provide you with an executable plan to improve critical areas where you use PLM.

Effective and Proven Methodology

A Services Consultant will work with you to measure your PLM maturity on your processes and will compare your company to the best in class. The consultant will work with you to determine where improvement will give you the most business benefit and an actionable plan to implement the changes using defined business transformation enablers.

Analysis of PLM in key Product Development Domains

DS Industry Services works with you to assess how you use PLM in the major processes supporting critical Product Development Domains including:

- Enterprise / Business Governance
- Customer Experience
- Design & Engineering
- Manufacturing
- Capital Project Governance
- Global Sourcing / Supply Chain Management
- Operations and Maintenance
- Service and Support
- Regulatory Affairs
- Systems Engineering

The Approach

Interviews with the key people within the organization based on your enterprise business drivers and global strategy to assess your current situation.

A deep analysis of the results mapped with PLM best practices in your industry to propose improvements.

A written report and executive presentation with an implementation roadmap and estimated ROI

Assessment Framework:

We Ask:

- What do you do?
- How do you do it?
- How painful is it?
- How do you know?
- What do you expect?

We Assess:

- Major Business Challenges
- Goals for Business Transformation
- Customer PLM Vision & Maturity

We Evaluate:

- People
- Processes
- Tools

We Define:

- Estimated Return on Investment
- Feasibility of Change
- Prioritization
- Plan for Transformation

The assessment is done in the context of DS PLM usage with a goal of harnessing the power of the tools to impact your bottom line.
