TRANSITION FACTORY

A smooth transition to the **3D**EXPERIENCE

MAXIMIZING YOUR 3DEXPERIENCE

Transition Factory incorporates methodologies, tools and customization into a comprehensive strategy and implementation plan to deliver a unified and flexible V6 transition that meets your business needs. This safe and non-disruptive solution supports transition and coexistence scenarios with all 3DS and competitor legacy sources with best in class quality.

Beginning with an assessment of your business processes, tools and personnel, we define a transition plan with your goals, timing and project requirements in mind.

A SECURE TRANSITION PLAN

The Transition Factory service offering helps provide a secure transition path to the **3D**EXPERIENCE® platform. This proven implementation offering aligns a secure transition plan to your business strategy and maximizes your return on investment.

Approach and Methodology

Transition Factory uses a three phased approach to help your entire organization along the way.

Phase 1—Assess and Define

Comprehensive understanding of your business processes and requirements to provide an intial transition plan that includes insight on V6 capabilities and value

Phase 2—Design and Build

Design and build solution to maximize V6 out of the box features, maximize solution reliability and maintain alignment with 3DS R&D product roadmap

Phase 3—Deploy and Support

Deploy solution, assist with data migration, educate user population and maintain high level of system performance

Transition Factory Value

- Protects your IP and investment in 3DS Solutions
- Flexible transition paths
- Safe and non-disruptive implementation
- Capitalized methodologies based on previous deployments
- Optimizes end-user adoption
