

# OPTIS PRISTINE

“Visualizing aesthetic quality”

CATIA HD2

Coreq  
Prereq  
FTA  
RTR  
KIN

- **aesthetica™ CATIA V5 Interface Module**

*Efficient and reliable transfer of product model data from CATIA V5 into aesthetica for manufacturing variation studies*

- **At the design stage**  
Visually reviewing the proposed measurement plans on A-Class surface models early in the design process
- **At the engineering stage**  
Visually reviewing the impact of locator strategies and variation stack-up within the assembly during early engineering development
