

WILCOX ASSOCIATES

“Driven by precision”

SOFTWARE
PARTNER
V5 Adopter

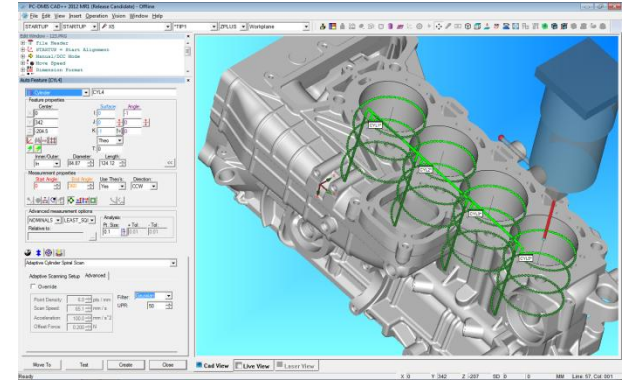

- **PC-DMIS CATIA V5 Direct CAD Interface (DCI)**

Generates part programs, evaluates measurement results and generates inspection reports

- Eliminates translation with direct use of the CATIA geometry data and GD&T information
- Maintains the original design intent throughout the measurement process
- Maintains links between the CAD model, the inspection plan and the measurement program(s)
- Runs any brand or style of Coordinate Measuring Machine (CMM), maximizing its productivity in the process

- **PC-DMIS CAD++**

Provides sophisticated tools for high speed scanning, sheet metal measurement, part alignment, and many more precision measurement functions
