CATIA RM2

Coreq	Prereq
—	—
—	—

• TDM CAM-Integration

- Support the processing technologies of turning, drilling, milling
- Online database access from the CATIA environment

• TDM CAD-Solidconverter

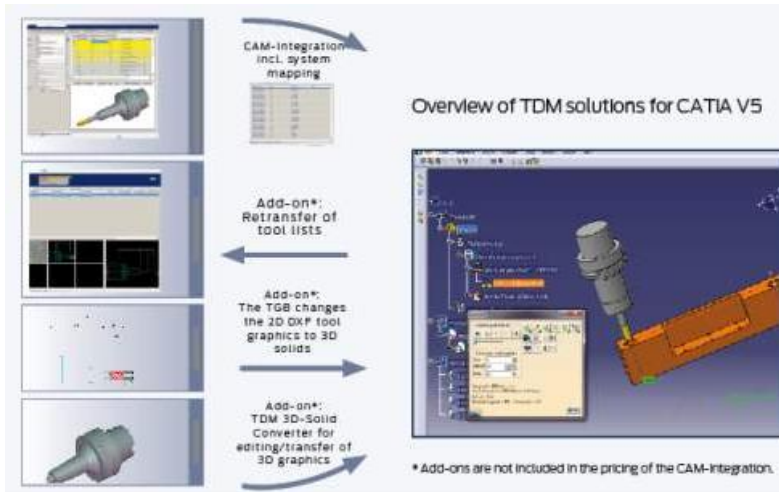

- The 3D Solid Converter generates for rotating and stationary tool assemblies (turning, drilling, milling) special step-Files to simulate in CATIA (incl. material removal simulation)

CATIA MD1

Coreq	Prereq
—	—
AMG	—
LMG	—
MPA	—
MSG	—
NCG	—
PMG	—
SMG	—

• TDM ToolGraphicBuilder CAAV5 Based (TGB)

- Creation of a 3D-solid of the assembly in CATIA V5 with identification of cutting and non-cutting-parts for rotatable tools
