

### • HICAD/CADAS for CATIA V5 (MSG)

*Automatically generates Medial Surface, reducing analysis time for thin parts design and analysis*

- Control of Medial Surface Shape with interactive operations
- Generation of Medial Surface from complex models with rib
- Automatic calculation of board thickness

CATIA MD1

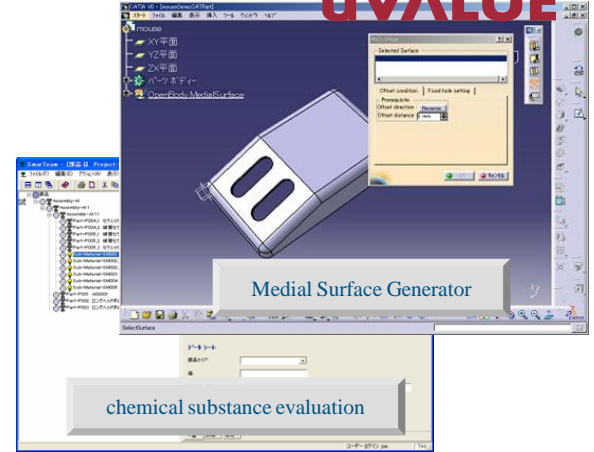

### • Design for Environment System for ENOVIA SmarTeam

*Helps companies produce products with respect to environmental directives & regulations : REACH, RoHS, EuP...*

- Environmental evaluation for design
- Definition of business processes regarding environmental evaluation

ENOVIA SmarTeam  
SEG
