"Movement starts on the inside"

CATIA HD2

Coreq Prereq
–
–

- **RAMSIS in CATIA V5**

  For efficient integration of ergonomics in the early stages of the vehicle and aircraft design process

  - Fast creation of realistic human figures (manikins), based on international databases : *Germany, France, USA, Canada, Mexico, South America, Japan, India, Korea and China*
  - High quality model display
  - Automatic calculation of realistic driver postures in CATIA, based on extensive research on real drivers
  - Additional posture prediction models for cars, trucks, airplanes and more
  - Numerous functions for in-depth ergonomic analysis
  - Compatibility with 3D body laser scanners, for creation of individual manikins
