

CD-adapco

“Your CAE Partner for Success”

- **STAR-CAT5, STAR-CCM+ Client for CATIA V5**

For engineers and CFD analysts

- Evaluate “what-if” design scenarios quickly in CATIA V5
- Direct transfer and update of models in STAR-CCM+ from CATIA V5 to drive design changes

Industry leading CAE Technology

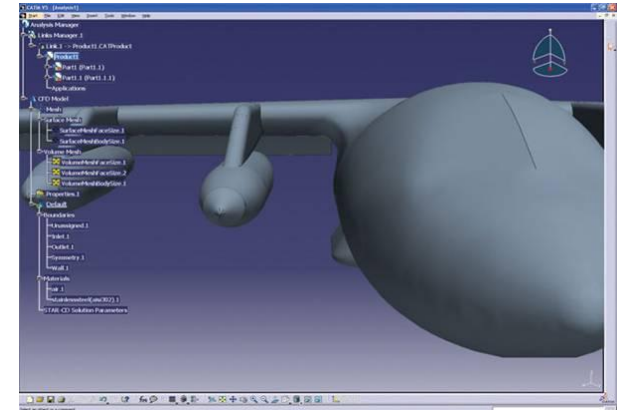

- STAR-CCM+ offers the fastest and easiest process for getting accurate, dependable answers on the most complex engineering problems

Full-spectrum CAE software and services

- A single simulation file format enables collaborative and interoperable work between Design and Analysts teams
- A single license gives access to the power of STAR-CCM+

CD-adapco also offers Engineering services and training to execute the next level of engineering analysis and implement the methods.
