AUTOFORM
Forming Reality

Coreq	Prereq
-	-

CATIA HD2 • **AutoForm-ProcessDesigner**for CATIA

Easy and Rapid Creation of High Quality CAD Die Faces

- Creation of die layout which includes deep drawing as well as all secondary operations
- Combines expertise in sheet metal forming with the effective design functionalities of CATIA – tailored to the needs of process designers

Coreq	Prereq
GPS	-

CATIA HD2 • **AutoForm-OneStep**for CATIA

Engineering of manufacturable sheet metal parts

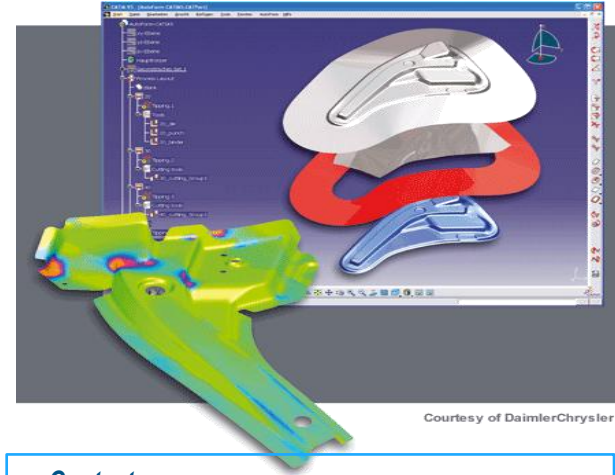

- Make the right choices on crucial design elements by identifying formability hot spots
- Validate formability based on proposed or plausible stamping and process layouts
- Assess the relative cost of design and material choices

Coreq	Prereq
GPS	HA1

CATIA HD2 • **AutoForm-QuickLink**for CATIA

Fast and Easy Data Exchange between AutoForm^{Plus} and CATIA
