

“A World in Motion.”

- **Products: High speed, high resolution, interference-free, low latency tracking**

- **Vicon T-Series and Bonita:** Eliminates the lag, inaccuracies, unpredictability and unresponsiveness of traditional magnetic or inertial technologies
- **Vicon Tracker:** Powerful object tracking solution providing unrivaled data accuracy for integration into 3DVIA VirTools and other DS products

- **Benefits**

- **Immersive environments:** Track head, hand or body movements, stream real-time data to humanoid mannequin (DELMIA Safework) or VRPN
- **Immediate feed-back:** Conduct ingress-egress and seated operator studies
- **Cost effective:** Making quality optical tracking more affordable than ever
