• TechViz XL CATIA Connector

Display large 3D data sets directly in your native application

- on any type of stereo 3D display,
- with a high frame rate,
- without any limitation for resolution, size, shape or performance.
- without any data conversion or data loss.

Switch to another level of experience

- Choose any screen size, any kind of immersive display
- Display in 1:1 scale or greater
- Manipulate model data by simply pointing
- Interact with your 3D scene in an immersive mode
- Maximize the use of your 3D models
- Improve your understanding of the 3D data
