

“Creative 3D Technology”

- **Products: Active and passive stereoscopic 3D systems**
Used with CATIA/DELMIA/3DVIA provide high level of realism and immersion
 - Immersive application, simulation caves & workstation: EDGE™ VR
 - Dual view caves: ActivEyes™
 - Auditorium 3D projections: SmartCrystal Crystal™
- **Technologies and Benefits**
 - World's brightest and most color accurate 3D glasses
 - STN Liquid crystal lenses & ECB liquid crystal lenses
 - Custom-made features
 - Intelligent software
 - No IR interference with head tracking / Extended range and high reliability
 - RF 3D synchronization
 - No tools needed to clip trackers / Automatic recognition by head tracking system
 - Dedicated targets for IR trackers
