

“Bridging the gap between ECAD and PLM” pe4

• pe4 Connector to 3DEXPERIENCE

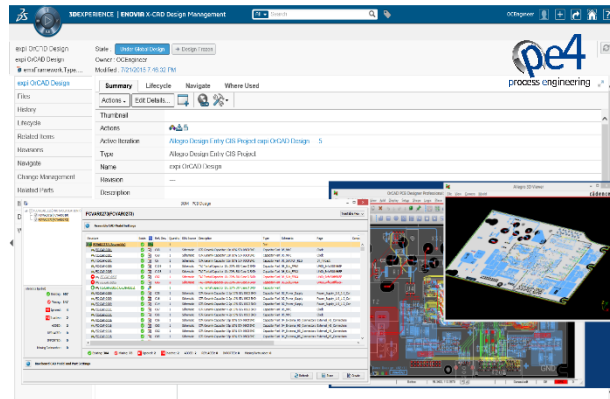

Integrates ECAD Design Data and processes into the 3DEXPERIENCE platform

- Management of schematic and layout data
- Management of Bill Of Materials
- Collaboration through workspaces and projects

• pe4 Library Connector to 3DEXPERIENCE

Integrates ECAD component information into the 3DEXPERIENCE platform

- Bidirectional synchronization of component information between ECAD and 3DEXPERIENCE
- Classify ECAD components through 3DEXPERIENCE processes
- New Part Introduction process support

Prerequisites (*)

pe4 Connector: PCS+CNV

pe4 Library Connector: PCS
