Hardware Requirements

Q-Checker for V5 Release 5.2 for use with CATIA V5 Release V5R21 through Release V5-6R2014 is offered on Windows® 32-bit and 64-bit platforms and on IBM AIX depending on the corresponding CATIA V5 release in use.

Q-PLM PDM and Q-PLM DX for V5 Release 5.2 are neither CATIA nor ENOVIA release dependent.

Q-PLM SmarTeam for V5 Release 5.2 is available for use with ENOVIA SmarTeam V5 Release V5R21 through Release V5-6R2014.
Q-Monitor for V5 Release 5.2 is offered on Windows® 32-bit and 64-bit platforms and on IBM AIX.

**Hardware Requirements**

Any configuration certified with CATIA Version 5 (V5R21 through V5-6R2014) at General Availability dates.

**Software requirements**

**Common Software Requirements**
Q Checker for V5 Release 5.2 is designed to operate with CATIA Version 5 Release 21 through Version V5-6R2014 software in their respective environments and requires the same level of Operating System software and patches that those levels of CATIA software requires.

- **Microsoft Windows 32-bit Environment:**
  - Windows XP Professional SP3
  - Windows Vista Enterprise / Business Edition x86 SP1

- **Microsoft Windows 64-bit Environment:**
  - Windows XP Professional x64 edition SP2
  - Windows Vista Enterprise / Business Edition x64 SP1 & SP2
  - Windows 7 Enterprise Edition/Professional Edition x64 RTM & SP1

- **IBM Environment:**
  - AIX 6.1
  - AIX 7.1

- **All Environments**
  - CATIA Version 5

All CATIA platforms are supported with the minimum being a P1 configuration software license such as the MD1 configuration. To perform checks using certain Composites criteria, a CATIA CD3 license is required. To perform checks using the criterion **MML (Multi-Model Link) Reference Not Published**, a CATIA PX1 license is required.

**Q-Monitor Software Requirements**
Q-Monitor is designed to evaluate Q-Checker check results that have been saved in a relational database. Therefore, you must have such a database and a TCP/IP connection to the database server. Supported database management systems include:

- DB2
- Oracle
- MS SQL Server
- MySQL
• PostgreSQL

Prerequisites for the Q-Monitor application are:
• JAVA 1.4 or above
• JDBC driver for database access

Q-PLM Software Requirements
Q-PLM is a configurable standard integration solution of Q-Checker with PDM systems, including Dassault Systèmes’ ENOVIA SmarTeam, ENOVIA V6 and data exchange servers such as DXM, DDX and SWAN, and others. Therefore, an operational Q-Checker installation is required. Additional prerequisites for the Q-PLM application are:
• Java 1.6 or above

Other Required Software:
• HTML browser:
  o An HTML browser such as Mozilla Firefox or Microsoft Internet Explorer (Version 5 or later) is required for viewing the HTML check protocols generated by Q-Checker. Q-Checker can be configured to display the criteria online help in an internal browser or to call an external HTML browser.
• Adobe Acrobat Reader, version 7.0 or later
  o In order to view or print the PDF manuals, Adobe Acrobat Reader or equivalent software is required.
• License Manager
  o DSLS (Dassault Systèmes License Server) V6R2014x

Licensed Program Materials Availability

• Restricted materials - No. This Licensed Program is available without source licensed program materials. It is available in object code only.

Supplemental Terms

Terms that are initially capitalized in the supplemental terms below are defined in the Glossary - Release 1, available at www.3ds.com/terms/glossary.

Licensing Schemes & Geographic Scope
The licenses on the Licensed Program to which this LPS applies are granted pursuant to the Agreement with Dassault Systèmes for the following usage and authorized users as such terms are defined in the Glossary - Release 1.

- **Concurrent Based** (floating)
- **Machine Based** (Node-locked)

Licenses of the Licensed Program to which this LPS applies are granted for use only in the country for which the license is ordered. Users whose usual workplace is located in the same country as the country where such use of the Licensed Program has been authorized, may use the Licensed Program in any other country (subject inter alia to the Export and Re-export laws and regulations provision of the Agreement) for purposes of a business trip of a maximum of thirty (30) consecutive days.

**Other Permitted Uses**

**USE FOR CERTAIN SERVICES.** Except for Development Tool Kits, Licensee is authorized to use such Licensed Program for added-value engineering and/or implementation services. Added-value engineering or implementation services are services to deliver to a third party end user any deliverable generated specifically for said third party end user from use by Licensee of the Licensed Program. In any event, Licensee may not (A) use the Licensed Program to develop software code for (i) general distribution by any means, and whether alone or bundled or delivered with any product, data, information, software, or other element, or (ii) any services that do not add value attributable to the intervention of specific human skills, such as, without limitation, in a data services operation or as an applications service provider, or (B) install and/or operate the Licensed Program on any hardware and/or software environment owned by or under control of any third party, or (C) represent or imply to any party that it is an authorized or certified provider of services for Dassault Systèmes. Licensee shall indemnify, defend and hold harmless DS against any claim, expense, judgment, damage, or loss (including reasonable attorneys’ fees) which arises out of or in any way relates to Licensee’s use of the Licensed Program with third party end users.

**OUTSOURCING TO A THIRD PARTY.** Licensee is authorized to execute the Licensed Program remotely on computers operated by third parties, provided that only duly authorized Users, and/or Extended Enterprise Users if applicable, shall have access to the Licensed Program. Licensee may appoint a third party, such as an outsourcer, to operate the hardware on which the Licensed Program are installed, on behalf of Licensee, only if (i) Licensee does not assign the Agreement or any licenses granted thereunder, in whole or in part, to the third party, (ii) the third party and Licensee enter into a written Agreement under which the third party agrees that its access to and use of the Licensed Program is subject to all of the grant of license, confidentiality, restrictions, and limitations on use provisions of the Agreement, and (iii) such third party is not a competitor of any DS Group Company. Licensee acknowledges and agrees that the third
party shall be deemed an agent of Licensee. If Licensee becomes aware of any actual or suspected unauthorized use or disclosure of the Licensed Program, Licensee shall immediately terminate the third party’s access to and use of the Licensed Program. Licensee shall indemnify, defend, and hold harmless Dassault Systèmes against any claim, expense, judgment, damage, or loss (including reasonable attorneys’ fees) which arises out of or in any way relates to each third party’s access to or use of the Licensed Program.

**LICENSEE’S RESPONSIBILITY.** In addition to all terms and conditions of the Agreement and all other provisions of this LPS, Licensee agrees that it is responsible for ensuring that any use of the Licensed Program by all Users, and, if applicable, all Named Users and/or Extended Enterprise Users, shall at all times be in compliance with the terms and conditions of the Agreement, and any breach by Extended Enterprise Users (if applicable) of the terms of this Agreement shall also be deemed a breach by Licensee.

---

**Type/Duration of Program Services** *(also referred to as “Support Services”)*

You will find all necessary information including processes, on Dassault Systèmes website:

http://www.3ds.com/terms/support-policies

---

**Specific Terms for Third Party Software**

The specific terms relating to the use of certain third party software components or products not developed by or for a DS Group Company and granted to Licensee to be used in connection with or within a Licensed Program are defined hereafter:

**Open Source Software**

The Licensed Programs may include open source software components. Whenever notices (such as acknowledgment, copies of licenses or attribution notice) are required by the original licensor, such notices are included in the Documentation of the Licensed Programs.
The warranty and indemnification provided by DS under the Agreement does NOT apply to all such open source software components. Support Services provided by DS under the Agreement apply to open source software components and shall be provided by DS and not by the original licensor, but only for the use of the Licensed Programs that is in compliance with the terms of the Agreement, and in conjunction with the Licensed Programs. The original licensors of said open source software components provide them on an “as is” basis and without any liability whatsoever to Licensee.

**Additional Third Party Software Terms**

None.

**Exclusions**

The Support Services provided by DS under the Agreement are not applicable to third party software components mentioned hereunder:

None.

---

**Designated Machine Identification**

No

---

**Test Period**

No

---

**Security Mechanisms**

Dassault Systèmes and its affiliated companies take all legal steps to eliminate piracy of their software products. In this context, the Licensed Program may include a security mechanism that can detect the installation or use of illegal copies of the Licensed Program, and collect and transmit data about those illegal copies only. Data collected will not include any Licensee data created with the Licensed Program. By using the Licensed Program, Licensee consents to such detection and collection of data, as well as
its transmission and use if an illegal copy is detected. Dassault Systèmes also reserves
the right to use a hardware lock device, license administration software, and/or a license
authorization key to control access to the Licensed Program. Licensee may not take any
steps to avoid or defeat the purpose of any such measures. Use of any Licensed Program
without any required lock device or authorization key provided by Dassault Systèmes is
prohibited.

**Softcopy Publications**

The Licensed Program may include licensed publications in displayable or source form.
Except as provided in this section, the terms and conditions of the Agreement with
Dassault Systèmes apply to these publications and to any copies that are made from them.

The licensed publications may be used in displayable or source form on all machines
designated for this Licensed Program. The licensed publications may also be copied and
used on other machines in support of authorized use of this Licensed Program.

To support authorized use of the Licensed Program, printed copies of the displayable or
source material may be made if the copyright notice and any other legend of ownership is
reproduced on each copy or partial copy. ¹

---

**Warranty**

The Licensed Program is warranted as specified in the Agreement with Dassault
Systèmes.

Licensed Program Specifications may be updated from time to time and such updates
may constitute a change in specifications.

Following the discontinuance of all Program Services (Support Services), this Licensed
Program will be provided "As Is" as specified in the Agreement with Dassault Systèmes.

---

**Footnotes:**

1. Trademarks

Q-Checker, Q-PLM, Q-Monitor, CATIA, ENOVIA, SmarTeam and the Dassault Systèmes logo are trademarks or registered trademarks of Dassault Systèmes or its subsidiaries in the US and/or in other countries.
Company, Licensed Program, products and services names may be trademarks or service marks of related companies.

References in this publication to Dassault Systèmes Products, Licensed Program and/or Program Services (Support Services) do not imply that Dassault Systèmes intends to make these available in all countries in which Dassault Systèmes operates.

Any other documentation with respect to this Licensed Program, excluding any documentation referenced herein, is provided for reference purposes only and does not extend or modify these specifications.
