Licensed Program Specifications (LPS)

ENOVI A Enginuity 4.9

This LPS covers the following ENOVIA Enginuity 4.9 Licensed Program:

**Enginuity R4 Products**
- EGY ENOVIA Enginuity Client
- EGV ENOVIA Enginuity Viewer
- EGS ENOVIA Enginuity Server
- ESA ENOVIA Enginuity System Administrator
- ERM ENOVIA Enginuity Raw Material Administrator

**Enginuity R4 Option Modules**
- EML ENOVIA Enginuity Multi-Region Ingredient Labeling
- EAD ENOVIA Enginuity Advanced Regulatory and 7th Amendment
- EIR ENOVIA Enginuity International Product Registration
- EBC ENOVIA Enginuity Raw Material and Formula Bar Coding
- EDY ENOVIA Enginuity Dye Calculator
- ERN ENOVIA Enginuity Resin Neutralization Calculator
- ESP ENOVIA Enginuity Live Specifications
- EPF ENOVIA Enginuity Product Performance Database
- EIF ENOVIA Enginuity Product Dossier
- EWB ENOVIA Enginuity Web Services Suite (including eight web services)

Hardware & Software Requirements

Hardware Requirements

The following chart shows minimum hardware requirements for ENOVIA Enginuity 4.9.

<table>

</table>
Operating System Requirements

The ENOVIA Enginuity Client and ENOVIA Enginuity viewer run on either Windows 32 bit or Windows 64 bit (Windows 2000 or greater). All the other applications require Windows 64 bit (Windows 2000 or greater).

Database Requirements

Oracle 10g, Oracle 11g or SQL Server 2008 64 bit is required.

Other Software Requirements

Java 6 is required for the client workstation.

Licensed Program Materials Availability

- Restricted materials - No. This licensed program is available without source licensed program materials. It is available in object code only.

Supplemental Terms

Terms that are initially capitalized below are defined in the Glossary - Release 1, available at www.3ds.com/terms/glossary.

Licensing Schemes & Geographic Scope

The licenses on the Licensed Program to which this LPS applies are granted pursuant to the Agreement with Dassault Systèmes for the following usage and authorized users as such terms are defined in the Glossary - Release 1.

- Named User Based
- System License

Licenses of the Licensed Program to which this LPS applies are granted for use only in the country for which the license is ordered. Users whose usual workplace is located in the same country as the country where such use of the Licensed Program has been authorized, may use the Licensed Program in any other country (subject inter alia to the
Export and Re-export laws and regulations provision of the Agreement) for purposes of a business trip of a maximum of thirty (30) consecutive days.

Additional Information for Named User Based License: “ENOVIA Enginuity Client” (EGY) Licensed Program constitutes a prerequisite of each of the ENOVIA Enginuity Licensed Programs listed below (Option Modules). The number of each Option Module licenses purchased by Licensee must equal the total number of “Enovia Enginuity Client” licenses (EGY) acquired by Licensee.

Option Modules list:

Other Permitted Uses

USE FOR CERTAIN SERVICES. Except for Development Tool Kits, Licensee is authorized to use such Licensed Program for added-value engineering and/or implementation services. Added-value engineering or implementation services are services to deliver to a third party end user any deliverable generated specifically for said third party end user from use by Licensee of the Licensed Program. In any event, Licensee may not (A) use the Licensed Program to develop software code for (i) general distribution by any means, and whether alone or bundled or delivered with any product, data, information, software, or other element, or (ii) any services that do not add value attributable to the intervention of specific human skills, such as, without limitation, in a data services operation or as an applications service provider, or (B) install and/or operate the Licensed Program on any hardware and/or software environment owned by or under control of any third party, or (C) represent or imply to any party that it is an authorized or certified provider of services for Dassault Systèmes. Licensee shall indemnify, defend and hold harmless DS against any claim, expense, judgment, damage, or loss (including reasonable attorneys’ fees) which arises out of or in any way relates to Licensee’s use of the Licensed Program with third party end users.
OUTSOURCING TO A THIRD PARTY. Licensee is authorized to execute the Licensed Program remotely on computers operated by third parties, provided that only duly authorized Users, and/or Extended Enterprise Users if applicable, shall have access to the Licensed Program. Licensee may appoint a third party, such as an outsourcer, to operate the hardware on which the Licensed Program is installed, on behalf of Licensee, only if (i) Licensee does not assign the Agreement or any licenses granted thereunder, in whole or in part, to the third party, (ii) the third party and Licensee enter into a written Agreement under which the third party agrees that its access to and use of the Licensed Program is subject to all of the grant of license, confidentiality, restrictions, and limitations on use provisions of the Agreement, and (iii) such third party is not a competitor of any DS Group Company. Licensee acknowledges and agrees that the third party shall be deemed an agent of Licensee. If Licensee becomes aware of any actual or suspected unauthorized use or disclosure of the Licensed Program, Licensee shall immediately terminate the third party’s access to and use of the Licensed Program. Licensee shall indemnify, defend, and hold harmless Dassault Systèmes against any claim, expense, judgment, damage, or loss (including reasonable attorneys’ fees) which arises out of or in any way relates to each third party’s access to or use of the Licensed Program.

LICENSEE’S RESPONSIBILITY. In addition to all terms and conditions of the Agreement and all other provisions of this LPS, Licensee agrees that it is responsible for ensuring that any use of the Licensed Program by all Users, Named Users and/or Extended Enterprise Users if applicable shall at all times be in compliance with the terms and conditions of the Agreement. Any breach of the terms of this Agreement by Extended Enterprise Users if applicable, shall also be deemed a breach by Licensee.

Type/Duration of Program Services (also referred to as “Support Services”)

You will find all necessary information including processes, on Dassault Systèmes website:

http://www.3ds.com/terms/support-policies

Designated Machine Identification

No
Separately Licensed Code

The following packages may be included in the Licensed Program and are licensed under the GNU LGPL (available here [http://www.gnu.org/licenses/lgpl.html](http://www.gnu.org/licenses/lgpl.html)):

- iText 1.1
- JIDE Common Layer 2.6.6
- SwingX 0.9.5
- MyDoggy Docking Framework 1.4.2
- Restlet 2.5
- Beanshell 2.0b4

The warranty and Support Services provided by Dassault Systèmes under the Agreement apply to all such open source packages and are provided by Dassault Systèmes and not by the original licensor. The original licensor of the open source packages provides it on an “as is” basis and without any liability whatsoever to Licensee.

---

Test Period

No

Security Mechanisms

Dassault Systèmes and its affiliated companies take all legal steps to eliminate piracy of their software products. In this context, the Licensed Program may include a security mechanism that can detect the installation or use of illegal copies of the Licensed Program, and collect and transmit data about those illegal copies only. Data collected will not include any Licensee data created with the Licensed Program. By using the Licensed Program, Licensee consents to such detection and collection of data, as well as its transmission and use if an illegal copy is detected. Dassault Systèmes also reserves the right to use a hardware lock device, license administration software, and/or a license authorization key to control access to the Licensed Program. Licensee may not take any steps to avoid or defeat the purpose of any such measures. Use of any Licensed Program
without any required lock device or authorization key provided by Dassault Systèmes is prohibited.

**Softcopy Publications**

The Licensed Program may include licensed publications in displayable or source form. Except as provided in this section, the terms and conditions of the Agreement with Dassault Systèmes apply to these publications and to any copies that are made from them.

The licensed publications may be used in displayable or source form on all machines designated for this Licensed Program. The licensed publications may also be copied and used on other machines in support of authorized use of this Licensed Program.

To support authorized use of the Licensed Program, printed copies of the displayable or source material may be made if the copyright notice and any other legend of ownership is reproduced on each copy or partial copy. ¹

**Warranty**

The Licensed Program is warranted as specified in the Agreement with Dassault Systèmes.

Licensed Program Specifications may be updated from time to time and such updates may constitute a change in specifications.

Following the discontinuance of all Program Services (Support Services), this Licensed Program will be provided "As Is" as specified in the Agreement with Dassault Systèmes.

**Trademarks**

ENOVIA, Enginuity and Dassault Systèmes’ logo are trademarks or registered trademarks of Dassault Systèmes or its subsidiaries in the US and/or in other countries.

Company, products and services names may be trademarks or service marks of related companies.
References in this publication to Dassault Systèmes Products, Licensed Programs and/or Program Services (Support Services) do not imply that Dassault Systèmes intends to make these available in all countries in which Dassault Systèmes operates.

Any other documentation with respect to this Licensed Program, excluding any documentation referenced herein, is provided for reference purposes only and does not extend or modify these specifications.
