Licensed Program Specifications (LPS)

SIMULIA® Isight 5.7 and SIMULIA® Execution Engine 5.7

A list of SIMULIA® Isight 5.7 and of SIMULIA® Execution Engine 5.7 Licensed Programs is available in the Product Portfolio on Dassault Systèmes website: www.3ds.com/terms/product-portfolio.

Hardware and Software Requirements

Hardware and software information for SIMULIA Isight 5.7 and SIMULIA Execution Engine 5.7 Licensed Programs is available on the following website:

http://www.simulia.com/support/sup_systems_info.html

Licensed Programs Materials Availability

- Restricted materials - No. These Licensed Programs are available without source Licensed Programs materials. They are available in object code only.

Supplemental Terms

Terms that are initially capitalized below are defined in the Glossary - Release 1, available at www.3ds.com/terms/glossary.

Licensing Schemes & Geographic Scope

The licenses on the Licensed Programs to which this LPS applies are granted pursuant to the Agreement with Dassault Systèmes for the following usage and authorized users as such terms are defined in the Glossary - Release 1.
The Licensed Programs may be accessed and executed by Users whose usual workplace is at the same facility as the License Server or on the Machines for which license keys have been provided, as applicable (1) on the License Server itself, and (2) on other Machines that are networked to the License Server at the same site as the License Server or are located in the same country as the License Server, as identified in the Quote.

Within the parameters of the Quote, Licensee may from time to time designate the License Server(s) for which license keys shall be provided and from which tokens shall be available to other Machine(s) subject to the restrictions described in this LPS.

Licensee shall promptly provide DS with usage reports when requested.

Number of tokens. For execution of Isight simulation workflows, the number of required tokens (referred to as “Isight Tokens”) is determined by the number and type of components in the simulation workflow and the number of CPUs or cores used in running the simulation workflow. Required token configurations may be changed for new or renewed licenses and with modifications of the covered products. Licensee will receive one or more license keys, each for a specific License Server which will permit access to the Licensed Programs. License keys include the agreed number and type of tokens for the Licensed Programs. The Licensed Programs, license tokens and applicable fees are specified in the Quote.

**Additional Information for Concurrent Based license:**
Each Licensed Program licensed in Concurrent Based mode requires a unique license feature for each concurrent User. Licensee will receive one or more license keys, each for a specific License Server which will permit access to the Licensed Program(s).

**Other Permitted Uses**

**USE FOR CERTAIN SERVICES.** Except for Development Tool Kits, Licensee is authorized to use such Licensed Programs for added-value engineering and/or implementation services. Added-value engineering or implementation services are services to deliver to a third party end user any deliverable generated specifically for said third party end user from use by Licensee of the Licensed Programs. In any event, Licensee may not (A) use the Licensed Programs to develop software code for (i) general distribution by any means, and whether alone or bundled or delivered with any product, data, information, software, or other element, or (ii) any services that do not add value attributable to the intervention of specific human skills, such as, without limitation, in a data services operation or as an applications service provider, or (B) install and/or operate the Licensed Programs on any hardware and/or software environment owned by
or under control of any third party, or (C) represent or imply to any party that it is an authorized or certified provider of services for Dassault Systèmes. Licensee shall indemnify, defend and hold harmless DS against any claim, expense, judgment, damage, or loss (including reasonable attorneys’ fees) which arises out of or in any way relates to Licensee’s use of the Licensed Programs with third party end users.

OUTSOURCING TO A THIRD PARTY. Licensee is authorized to execute the Licensed Programs remotely on computers operated by third parties, provided that only duly authorized Users, and/or Extended Enterprise Users if applicable, shall have access to the Licensed Programs. Licensee may appoint a third party, such as an outsourcer, to operate the hardware on which the Licensed Programs is installed, on behalf of Licensee, only if (i) Licensee does not assign the Agreement or any licenses granted thereunder, in whole or in part, to the third party, (ii) the third party and Licensee enter into a written Agreement under which the third party agrees that its access to and use of the Licensed Programs is subject to all of the grant of license, confidentiality, restrictions, and limitations on use provisions of the Agreement, and (iii) such third party is not a competitor of any DS Group Company. Licensee acknowledges and agrees that the third party shall be deemed an agent of Licensee. If Licensee becomes aware of any actual or suspected unauthorized use or disclosure of the Licensed Programs, Licensee shall immediately terminate the third party’s access to and use of the Licensed Programs. Licensee shall indemnify, defend, and hold harmless Dassault Systèmes against any claim, expense, judgment, damage, or loss (including reasonable attorneys’ fees) which arises out of or in any way relates to each third party’s access to or use of the Licensed Programs.

LICENSEE’S RESPONSIBILITY. In addition to all terms and conditions of the Agreement and all other provisions of this LPS, Licensee agrees that it is responsible for ensuring that any use of the Licensed Programs by all Users, Named Users if applicable and/or Extended Enterprise Users if applicable shall at all times be in compliance with the terms and conditions of the Agreement. Any breach of the terms of this Agreement by Extended Enterprise Users if applicable, shall also be deemed a breach by Licensee.

Type/Duration of Program Services (also referred to as “Support Services”)

You will find all necessary information including processes, on Dassault Systèmes website:

http://www.3ds.com/terms/support-policies
Designated Machine Identification

No.

Test Period

No.

LICENSEE’S RESPONSIBILITY. In addition to all terms and conditions of the Agreement and all other provisions of this LPS, Licensee agrees that it is responsible for ensuring that any use of the Licensed Programs by all Users, Named Users if applicable and Extended Enterprise Users if applicable, shall at all times be in compliance with the terms and conditions of the Agreement, and any breach by Extended Enterprise Users (if applicable) of the terms of this Agreement shall also be deemed a breach by Licensee.

Security Mechanisms

Dassault Systèmes and its affiliated companies take all legal steps to eliminate piracy of their software products. In this context, the Licensed Programs may include a security mechanism that can detect the installation or use of illegal copies of the Licensed Program, and collect and transmit data about those illegal copies only. Data collected will not include any Licensee data created with the Licensed Programs. By using the Licensed Programs, Licensee consents to such detection and collection of data, as well as its transmission and use if an illegal copy is detected. Dassault Systèmes also reserves the right to use a hardware lock device, license administration software, and/or a license authorization key to control access to the Licensed Programs. Licensee may not take any steps to avoid or defeat the purpose of any such measures. Use of any Licensed Program without any required lock device or authorization key provided by Dassault Systèmes is prohibited.

Softcopy Publications

The Licensed Programs may include licensed publications in displayable or source form. Except as provided in this section, the terms and conditions of the Agreement apply to these publications and to any copies that are made from them.
The licensed publications may be used in displayable or source form on all machines designated for such Licensed Programs. The licensed publications may also be copied and used on other machines in support of authorized use of such Licensed Programs.

To support authorized use of the Licensed Programs, printed copies of the displayable or source material may be made if the copyright notice and any other legend of ownership is reproduced on each copy or partial copy. ¹

Warranty

The Licensed Programs are warranted as specified in the Agreement.

Licensed Programs Specifications may be updated from time to time and such updates may constitute a change in specifications.

Following the discontinuance of Support Services related to the Licensed Programs, such Licensed Programs will be provided "AS IS" as specified in the Agreement.

Separately Licensed Code

The SIMULIA Isight 5.7 Licensed Program contains the following components:

- GWT Beans Binding from Oracle Corp.
- Java UUID Generator (JUG) from Tatu Saloranta
- ModalFrameUtil from Santhosh Tekuri
- RSyntaxTextArea from Robert Futrell

that are separately licensed code, and licensed under the terms of the GNU Lesser General Public License available at: http://www.gnu.org/licenses/lgpl.html
