2.2. SPECIFIC PROVISIONS FOR CERTAIN DS OFFERINGS

Simulation Capabilities included with 3D Generative Shape Designer (6NP-GDE-OC) Online Services

The 3D Generative Shape Designer (6NP-GDE-OC) Online Services entitle Users to a specific set of compute capabilities to support simulations executed on Customer-provided IT resources from within 6NP-GDE-OC and subject to the following limitations:

- The 6NP-GDE-OC Online Services entitle Users to execute linear static, linear buckling simulation or frequency extraction about an unloaded base state.
- The 6NP-GDE-OC Online Services comprise client applications (Graphical User Interface) and compute capabilities which shall not be operated simultaneously by more than one (1) User.
- The 6NP-GDE-OC Online Services entitle Users to execute a maximum of one (1) simultaneous simulation.
- The 6NP-GDE-OC Online Services entitle Users to execute simulation software on up to four (4) processor cores.
