

# ANYWAVES

ANYWAVES designs and manufactures a new generation of miniature, high-performance and high-quality antennas for space applications.

**“SIMULIA CST Studio is a powerful, comprehensive, fast and agile solution.”**

– Nicolas Capet, Founder and CEO, ANYWAVES

## Challenge

ANYWAVES needed to diversify electromagnetic calculation solutions to become the leader in miniature antennas for critical systems.

## Solution

The company selected the SIMULIA CST Studio Suite to increase the precision on electromagnetic simulation and earn new market share.

## Benefits

The easy-to-use SIMULIA CST Studio Suite enables ANYWAVES to save time thanks to very practical calculation macros. The Job Center Control tool facilitates queue management for simulation tasks. Also the richness of the digital methods catalog meets the company's needs.
