

RKS OFF-ROAD

Producers of recreational transportation to the extreme – rugged yet luxurious off-road trailers designed and manufactured in Southern California

“Our modern, technology-driven and robust products required enterprise system scalable technology, enabled by the 3DEXPERIENCE platform.”

– Elisabeth Gritsch, CEO & Managing Partner, RKS Off-Road, LLC

Challenge

As a startup, RKS Off-Road needed to provide a state-of-the-art and secure collaboration platform to internal and external teams. The company also required development and manufacturing tools at an affordable price to scale with the company without compromising integrity and quality of product and data.

Solution

Dassault Systèmes' 3DEXPERIENCE® platform Startup On-Cloud program supported RKS needs exactly by giving access to core development and manufacturing tools as well as supply chain management. The solution includes data authoring and continuity across different stakeholders.

Benefits

The highly accessible single source of truth for all team members enables RKS to reduce critical time to market for a new and highly innovative product. All core processes, methodologies and tools are in one enterprise system – always connected and always up-to-date.
