

The export control classification numbers (ECCN) set forth herein are subject to change as product functionality changes or applicable regulations change. These ECCN are a Dassault Systèmes self-classification of its software products based on its knowledge of the U.S. Export Administration Regulations. Dassault Systèmes shall not be liable for any damages or costs of any type arising out of or in any way connected with the use of these ECCN.

The information available on this webpage is for informational purposes only and does not constitute advice by Dassault Systèmes as to any particular set of facts, and does not represent any undertaking by Dassault Systèmes to keep the user advised as to all relevant export controls development. Dassault Systèmes strongly encourages users to seek competent legal counsel for advice.

For additional information on Export Controls you can go to the Wassenaar web page (<http://www.wassenaar.org/>).

IMPORTANT: There is no established schedule for updating this Tool.

3DS software products fall under the "General Software Note" (<http://www.wassenaar.org/controllists/index.html>) which releases them from list based controls except in the U.S.
